Faculty of Arts,
Dayalbagh Educational Institute

*Whose heart dances on beats and the life is on a rhythm
Whose soul is enchanted with music and its evolution,
I stand here in front, with this art as my passion.*

With a meaning in my name ‘the vision of mercy’ I **Pantula Mehar Niharika** is a student of English and Music from the **Faculty of Arts, DEI**. As a mixture of language (foreign language English) and tradition (Classical Music) I build a new cover of the culture of my country.

To work on Music Therapy is the future aim I built, it is welfare of humanity for which it is meant. I wish this trip brings new colors to me to nurture myself better and elevate my abilities. I share my interest in composing poems and music, choreography, dramatics.
